How to start?

**Step 1 ) You need DogDeFi + USDT on metamask**

Buy DogDeFi :

<https://app.uniswap.org/#/swap?inputCurrency=0x80bb277f4355a43cdbb86a82f9876c946476d9eb>

**Step 2 ) Add liquidity ( DogDeFi/USDT) :**

<https://app.uniswap.org/#/add/0x80bb277f4355A43CDbB86a82F9876C946476d9Eb/0xdAC17F958D2ee523a2206206994597C13D831ec7>

**Step 3) Start Staking : dogdeficoi.com**

### How to take the rewards :

- Step 1) Unstake
- Step 2) Claim
- Step 3) Remove your Liquidity and you get earned DogDeFi

## 2.Stage II

# Blockchain NFT Platform

## COSMO DOGS

There are 2 ways to collect cosmo dogs :

- creators' auction
- buy from users

You can earn cosmo dogs Litter 0 at the creators' public auctions (A limited number of Litter 0 dogs is created regularly) and other Litters by buying from users in the Space Marketplace. The Space Marketplace is where you can buy or sell Cosmo Dogs. The value of a Cosmo Dog depends on many factors: generation, traits, appearance, attributes.

Each Cosmo Dog has a unique appearance, determined by its Litter. When born, a Cosmo Dog's traits are determined by the Genes of the parents.

## Breed a new dog

### Breeding

A Cosmo Dog can breed with others by acting as a Mom or Dad.

### Generations

Any new generation of Cosmo Dogs is determined by its parents.

### Litter cooldown

To control the supply of cosmo dogs on the marketplace and maintain the value of the dogs, we have designed a long breeding cooldown. The breeding cooldown is 12 hours for the first time, and each subsequent one is 24 hours.

### Inheritance

Parents influence the appearance and traits of a puppy. This means parent dogs with higher laziness are more likely to breed a puppy with higher laziness. So be careful when choosing a doggie for breeding. The puppy's laziness value may even be higher than that of the parents.

#### **Earning:**

- You can create pairs and breeds by buying dogs.
- All your Dogs can be sold. You decide when and for how much.
- Payments are made only via DogDeFi.
- The site charges 10% of each buy and sell transaction

### 3.Stage III
